CAST L'ŒUF

Introducing another puzzle from the Dutch prodigy, Oskar. This labyrinth-style puzzle, done up in the shape of an egg, gained prize-winning honors at the 2nd Annual Puzzle Design Competition in Antwerp. The French puzzle name when translated into English is quite appropriately titled, "The Egg", which is of course the key word here. Simply put, the goal is to separate the two pieces and then put them back together. This task will prove to be trickier than you think.
